

**CANCER RESEARCH  
2021 – 2022**

The American Legion Auxiliary Department of Texas Cancer Research Program is a Texas-based one of a kind program that provides scholarships for students studying cancer research at the University of Texas Graduate School of Biomedical Science at M.D. Anderson Hospital in Houston. Since 1950, the ALA has been helping in this vital endeavor to find a cure and has donated over several million dollars to this program.

Cancer has touched every one of us in some form, thru a family member, a friend, a neighbor, or maybe even yourself. It has no age limit, young, old, big or small it affects us all. The only way we can fight this disease is through research and dedicated researchers and that takes money.

The Cancer Research Committee for the year 2021-2022 would like to make this a fun year and raise a lot of money for Cancer Research and here are some of the ways you can help.....
