*American Legion Auxiliary Department of Texas  
Education Scholarship Plan of Action 2021 - 2022*

---

This year our goal is for each Unit to raise and award \$100.00 for the Education Scholarship program.

Our mission is to help further our children's education with financial assistance. We have 273 Units in the state if each Unit reached that goal 54 students could be given a scholarship. That's over \$27,000.00 dollars in support that our children need.

January 31, 2022 is the date to be at the halfway mark. Education committee members, Division and District Presidents ensure all Units have knowledge of our mission. We can make this a banner year for our students if we all work together.

Each Unit that meets or exceeds our goal will receive a certificate of recognition. Be creative with fundraisers. Also reach out to local businesses and employers to ask for support. If any Unit has a unique and successful way of raising money, please share. Our scholarships could mean whether or not a student can continue their education.
